CONTENTS

Volume 104, Part 1

George, M. Studies on *Campodea* (Diplura): the anatomy of the glands and sense-organs of the head 1

Pugh, D. The cytology of the digestive and salivary glands of the limpet, *Patella* 23

Gahan, P. B., Bitensky, L., Chayen, J., Cunningham, G. J. and **Maggi, V.** The unmasking of cytoplasmic lipids in rat livers as a consequence of dietary changes 39

Hawkins, S. E., and **Danielli, J. F.** The effect of temperature variation on the multiplication rate of two strains of *Amoeba proteus* 45

Moorhouse, D. E. A study of the adrenal tissue of the male African bullfrog, *Rana adspersa* 51

Lūsis, O. The histology and histochemistry of development and resorption in the terminal oocytes of the desert locust, *Schistocerca gregaria* 57

Seshachar, B. R., and **Nayyar, R. P.** Intranuclear lipids in the early oocytes of *Heteropneustes fossilis* (Teleostei) 69

Thomas, O. L. Some observations concerning the supposed identity of the Golgi apparatus and Nissl substance of neurones 75

Rowell, C. H. F. A general method for silvering of invertebrate central nervous systems 81

Naik, N. T. Technical variations in Koelle's histochemical method for demonstrating cholinesterase activity 89

Baker, J. R., and **Luke, B. M.** The fine structure produced in cells by primary fixatives. 1. Mercuric chloride 101

Baker, J. R. The use of the word 'dense' in microtechnique 107

McGee-Russell, S. M., and **Smale, N. B.** On colouring epon-embedded tissue sections with Sudan black B or Nile blue A for light microscopy 109

Malhotra, S. K. The formation of zymogen granules in the pancreas of the mouse 117

Malhotra, S. K. Experiments on fixation for electron microscopy. 3. A note on fixation by acidified osmium tetroxide 123

Stewart, J. M., and **Muir, A. R.** The fine structure of the cortical layers in *Paramecium aurelia* 129

Shafiq, S. A. Electron microscopy of the development of tracheoles in *Drosophila melanogaster* 135

Siddiqui, E. H. The cuticle of cysticerci of *Taenia saginata*, *T. hydatigena*, and *T. pisiformis* 141

Grimstone, A. V. A note on the fine structure of a spirochaete 145

Volume 104, Part 2

Malhotra, S. K. Experiments on fixation for electron microscopy. 4. The sodium veronal buffer 155

Wainwright, S. A. Skeletal organization in the coral, *Pocillopora damicornis* 169

Bradbury, S., and **Meek, G. A.** A histochemical study of the Golgi apparatus or 'acroblast' of the spermatid of the snail, *Helix aspersa* 185

Bitensky, L. Modifications to the Gomori acid phosphatase technique for controlled-temperature frozen sections 193

Rogers, D. C. A cytological and cytochemical study of the 'epithelial body' on the carotid artery of the lizards, *Trachysaurus rugosus* and *Tiliqua occipitalis* 197

Menzies, G., and **Fisk, A.** Observations on the oxyntico-peptic cells in the proventricular mucosa of *Gallus domesticus* 207

Whitten, J. M. The dorsal nerves of cyclorrhaphan larvae: giant cells in which secretory channels appear at the onset of puparium formation 217

Osborne, M. P. The sensory neurones and sensilla in the abdomen and thorax of the blowfly larva 227

Finlayson, L. H., and **Mowat, D. J.** Variations in histology of abdominal stretch receptors of saturniid moths during development 243

Noble-Nesbitt, J. The fully formed intermoult cuticle and associated structures of *Podura aquatica* (Collembola) 253

Runham, N. W. A study of the replacement mechanism of the pulmonate radula 271

Baker, J. R. A further note on the use of the Philips 'mirror-condenser lamp' in microscopy 279

Watson, I. D., and **Callan, H. G.** The form of bivalent chromosomes in newt oocytes at first metaphase of meiosis 281

Volume 104, Part 3

King, R. C., and **Koch, E. A.** Studies on the ovarian follicle cells of *Drosophila* 297

Slifer, E. H., and **Sekhon, S. S.** The fine structure of the membranes which cover the egg of the grasshopper, *Melanoplus differentialis*, with special reference to the hydropyle 321

Dunn, A. E. G. A mechanical drive for the Huxley ultramicrotome 335

Jans, D. E., and **Ross, K. F. A.** A histological study of the peripheral receptors in the thorax of land isopods, with special reference to the location of possible hygroreceptors 337

Macgregor, H. C. Morphological variability and its physiological origin in oocyte nuclei of the crested newt 351

Noble-Nesbitt, J. The cuticle and associated structures of *Podura aquatica* at the moult 369

George, J. C., and **Naik, D. V.** Haematopoietic nodules as centres of fat synthesis in the liver of the migratory starling, *Pastor roseus* 393

Lane, N. J. Thiamine pyrophosphatase, acid phosphatase, and alkaline phosphatase in the neurones of *Helix aspersa* 401

Volume 104, Part 4

Goldstein, D. J. An approach to the thermodynamics of histological dyeing, illustrated by experiments with azure A 413

Byrne, J. M. Electrophoresis of acid dyes 441

Byrne, J. M. The vital staining of *Amoeba proteus* 445

Seshachar, B. R., and **Rao, S. R. V.** Cytochemistry of the test cells in the eggs of *Pyura squamulosa* (Tunicata, Pleurogonia) 459

Sundararaj, B. I., and **Prasad, M. R. N.** The histophysiology of the saccus vasculosus of *Notopterus chitala* (Teleostei) 465

Chatterjee, N. The histochemical demonstration of haemoglobin and haemosiderin in the growing oocytes of a teleost fish 471

Lee, R. S. Phosphatases in the neurones of *Locusta migratoria* 475

Kalk, M. Intracellular sites of activity in the histogenesis of tunicate vanadocytes 483

Lane, N. J. Microvilli on the external surfaces of gastropod tentacles and body-walls 495

Threadgold, L. T. The tegument and associated structures of *Fasciola hepatica* 505

Pittam, M. D. Studies of an amoebo-flagellate, *Naegleria grüberi* 513

Dahl, E., **Falck, B.**, **Mecklenburg, C. von**, and **Myhrberg, H.** An adrenergic nervous system in sea anemones 531

Robson, E. A. The nerve-net of a swimming anemone, *Stomphia coccinea* 535

Cohen, M. J. Muscle fibres and efferent nerves in a crustacean receptor muscle 551
